APPOINTMENTS

1895

electrolitic action over the entire system.

Have laid out all the railroad copper for feeders etc, some 120 miles for this year alone and am at present finishing plans for the same.

I would refer you for verification of the above to Mr. C. F. Baker Manager Marlboro and Mr C. H. Day, Supt of Line Construction, of the West End St. Ry. Co. and Mr. Albert Schmid, Supt Westinghouse Elect & Mfg Co. as to each of the above plans letters of recommendation are not directly given.

I was born and bred in Somerville and am at present a Citizen of that City,

Hon. Wm A. Bancroft,
Mayor of Cambridge.
Dear Sir:—

As the position of City Electrician of Cambridge will be made vacant, Sept. 1st 1895, by the resignation of Mr Moses, I would respectfully apply for the appointment to the same.

My electrical experience has been as follows.

Graduated from the Electrical Engineering course at Tufts, in the class of '91.

During my Sophomore vacation, worked for the "Portelectric Co" with Prof. Bray, laying out its experimental road in Dorchester.

My Summer vacation

with them, as installing engineer for, a little over a year.

During that time I installed, a running plant at the "Ella Coal Co." Wilmerdale, Pa. a power plant at the "Carnegie Steel Co's" works at Homestead Pa, - a lighting plant at Dawson and Pittsburg Pa. and made tests for the Citizens Railway and the Duquesne Traction Co of Pittsburg Pa. Also put in a quantity for the Pittsburg Reduction Co. manufacturing of aluminium at New Kensington Pa.

Received an offer from the West End St. Ry Co. in April '94, and returned to them.

Since my return I have had charge of the car, motor, rail and truck testing, Have also made exhaustive tests for

was spent with the Somerville Electric Light Co. on general electric work, direct and alternating current, house and street lighting, and some small motor work.

Immediately after graduation, entered the employ of the West End St. Ry. Co. of Boston, Mass. going through the various electrical departments and being foreman of the "Intrusic Construction Dept." for fourteen months. In this department I had of the car house and station lighting, switch board building and generator assembling, bell and telephone work.

Left the company to accept a position with the Westinghouse Electric and Mfg Co. in March 1893. and was

but, should I receive the
appointment, would move
to Cambridge at once.

I have enclosed a few
letters of recommendation.

Hoping for a favorable
reply I am

Yours respectfully
Fred H. Fiske
439 Albany St.,

Boston, May. 15th 1895

Hon. Wm. A. Bancroft,

Mayor of Cambridge,

Dear Sir:-

In yesterday morning papers I saw the announcement that Mr. Chas. H. Morse, the present Inspector of Wires had received the offer of the principal-ship of the Cambridge Manual Training School for Boys. Should he accept the same, I desire to present my name for the position of Inspector of Wires.

I am an electrical engineer, having graduated from the Massachusetts Institute of Technology in June, 1894, from the electrical department. Since then I have travelled and inspected a large number of power plants, both in this country and abroad. I have performed expert work the past year in making boiler tests for the Goodall Worsted Co. and also making a report for a large power transmission for the Sanford Mills.

I have also worked for the City of Cambridge, in the Electrical Department.

I would respectfully refer you to Mr. Morse who has known me the past ten years.

JOHN HOPEWELL, JR. O. F KENDALL. FRANK HOPEWELL.

Should you desire, I will call on you at your convenience and give further reference.

Trusting my application may receive your kind consideration, I remain

Yours respectfully,

Charles F. Hopewell.

81 Pemberton St. North Cambridge,
May 18, 1895.

Hon. William A. Bancroft:

Dear Sir,—

Hearing that Mr. C. H. Morse intends to resign the superintendency of lamps and wires in Cambridge I wish to apply for that position. I have graduated from both the Cambridge High School and the Manual Training School.

With the close of the present term I shall have satisfactorily completed a three years course in the electrical department of the Lawrence Scientific School

For ten months I was in the employ of the City of Boston in the Police Signal Department and received some practical experience there.

Most respectfully

Joseph J. Eaton

81 Pemberton St

Boston, Mass., May 20, 1895.

His Honor Mayor Bancroft,

Dear Sir:-

The following is sent in confirmation of the conversation with His Honor with reference to the writer's nomination as successor to Mr. Chas. Morse.

Mr. Chas. A. S. Howlett is a graduate of the public schools of Cambridge receiving a three years' electrical training at the Lawrence Scientific School, Harvard University. Leaving college he accepted a position as expert in the engineering corps of the Gen. Elec. Co., Lynn, from which he was promoted to the position of engineer. He severed his connection with the Gen. Elec. Co. to accept the position of assistant instructor in electrical engineering at the Lawrence Scientific School. He is at present acting as consulting engineer in the design, construction and installation of a complete electric lighting power station at York Harbor, Me., superintending also the work of the complete equipment of the Marshall House, York Harbor, Me. with six hundred incandescent lights and the construction of two miles of pole line.

He respectfully calls His Honor's attention to the undisputed fact that the average age of men holding responsible positions in the electrical profession is much lower than in many others.

For references he kindly refers to Mr. Chas. Morse.

Yours truly,

Chas. A. S. Howlett.

Cambridge, Mass., June 3, 1895.

Hon. William A. Bancroft, Mayor,

City of Cambridge, Mass,

Dear Sir:--

Understanding that the office of Inspector of Wires and Supt. of Lamps will soon be vacant, I respectfully make application for the position.

For the past fifteen years, I have been engaged in manufacturing and installing fire alarm and police telegraph apparatus and am familiar with the systems now in use in this city. During this time, I have been instructed on the various methods used in Electric Light and telephone construction by men who are foremost in their business in this country.

Yours very respectfully,

William H. Lynch

Ames Plow Co

Boston. June 3. 1895

Hon. Wm. A. Bancroft

Mayor of Cambridge.

Dear Sir.

I understand that Mr. Alfred B. Parker is a candidate for the office of Superintendent of Lamps and Electric Wires and I therefore beg that you will allow me to say a word in his favor.

Mr. Parker has been with us fifteen years, coming when a boy and growing up to be a salesman.

He has always been thoroughly

liked by us. being very courteous,
reliable and efficient.

I do not like to part with him;
but if it is to his advantage
I must cheerfully consent.

He is quick of apprehension
and I am sure will please
you in the office if you
decide to confer it upon him.

Very truly yours.

Chas. F. Whitmore

Treasurer

Cambridge May 21, 1895

Hon Wm A Bancroft.

Mayor

Dear Sir

Knowing of the vacancy in the Dept of Supt of Lamps. to be made by the retirement of Mr. Morse I have taken the liberty to ask to be concidered. in the appointment to fill the position

I have carfully concidered the responsibility of the position and in my own mind have thought that possibly a man with good business principles and a fair knowledge of the Electrical & Mechanical business. would be a good person for the position.

I will also state that a few prominent men of the city have asked me to endevor to secure the position and as office seldom comes unless it is sought. I asked you for due consideration

Yours very truly

Alfred S. Parker

Tufts College Mass. June 20th, 1895

Hon. W. A. Bancroft

Mayor of Cambridge

Sir: This is to introduce to you my son, C. E. Dolbear. He wishes to be an applicant for the position vacated by Mr Morse as City Electrician. He has been educated as an Electrician at Tufts College, the Class of 1892. Aside from a good knowledge of Electrical principles in all the departments of Electrical industries he has had a good apprenticeship in the Shops of the Westinghouse Co, at Pittsburg, the West End Co, in Boston and as assistant in the Electrical department at the Worlds Fair. He has a practical knowledge of the details of construction and operation of dynamos and motors of many types, of wiring, of heating and road inspection in Street rail way work. In telephony he has more than usual familiarity with apparatus, and in Electric lighting can build up de novo nearly all the apparatus in common use. He is energetic and trustworthy and could serve the City well with his mechanical & Electrical knowledge with uncommon ingenuity.

Respectfully

A. E. Dolbear

Charlestown June 26, 1895

Mayor Bancroft,

Dear sir,

You spoke to me on the seventeenth (17) of June about wanting a young man, electrical engineer preferred, for your department of lamps and wires.

I have tried to see Prof. Cross several times since and failing wrote to him and received the enclosed reply. The young man is an Institute graduate and has Prof. Cross' recommendation.

Hoping he may meet with your approval I remain

Yours respectfully

A. C. Lincoln Jr

32 Cordis St.

Rogers Laboratory of Physics,
Mass. Institute of Technology.

Bay View House, Lacona,
June 24, '95

Dear Mr Lincoln, -

I think that Mr. S. Edgar Whitaker, MIT 1893, EE, now with General Electric Co. would be a good man for the position that you mention. He is a college graduate likewise. His address is 3 Franklin St., Lynn. She would be accessible for an interview without much trouble.

Yours very truly
Chas R Cross

36 Holton St Allston Mass

June 10th 1895

To the Hon Mayor,-

City of Cambridge

I understand that the Office of Inspector of wires is soon to be vacant I would most respectfully petition for the appointment of Inspector I have had six years experience with the Boston Police Department on the Police Signal System and would refer as to my ability and character to the following persons

Mr. Robert Clark Boston Mass
Police Com.

Mr Wm H. Lee Boston Mass
Ex Police Com. He had charge
of the Police Signal System
while he held office

Mr Johan Weigel Boston Mass
Direton of the Police Signal

Mr T. Gleeson Boston Mass

Mr John R. Fairbane
E. Cambridge Mass

Mr Isaac Mc Lean
N. Cambridge Mass

Respectfully Your
Wallace F. Jordan

Cambridge,Mass., July 6th 1895.

Hon,W.A.Bancroft;

Mayor,Cambridge,Mass.

Dear Sir;

Knowing that there is to be a vacancy in the position of City Electrician,I desire to place my application for the place in your hands. I believe that I am fully competant to fill the place having had a number of years experience in that line of workwhich has made me thoroughly familiar with all classes of electrical work. I am used to all kinds of construction both inside and out. I have never had what you would term a technical education but my long service gives me an equally good knowledge of the business. I am a resident of this City living at # 75 Frost St, N.Cambridge:I can furnish you with the best of references as to my ability both as a business man and electrician,my present position demanding such qualifications. I would respectfully refer you to the following. F.A.Gilbert,Pres,Boston,Elec,Light,Co. Cap'T,Wm,Brophy of the Wire Dep't,City of Boston. E.I.Garfield,Gen'l B.F.Peach of the Ft Wayne Elec Cor'p # I7 Federal St Boston and to Swift & Co Chicago,Ill in whose employ I was in for upward of two years as Electrician. Trusting that this will recieve due consideration,I am,

Very respectfully yours.

C.R.Fish.

C.R. Fish

Form 105 5m.3 95

Cambridge, Mass. July. 8. 1895.

Hon. William A. Bancroft.

Mayor of the City of Cambridge.

Dear Sir:- I would respectfully ask to be considered as an applicant for the position of Inspector of Wires and Supt. of Lamps for the City of Cambridge.

My reasons for asking are because I think the position a desirable one and that I am fully competent to fill it.

In answer to your question, "Have you a College education?", I have not: but I have a good knowledge of Electrical matters gained through a study of books; beside a practical knowledge of over 10 years active work in Telephony, Electric Lighting, Fire Alarm and Police Telegraphs and Electric Railroading.

I had charge of the New England Telephone and Telegraph Co's district comprising Cambridge, Charlestown, Somerville, Medford, Winchester, Woburn, Stoneham, Reading, Arlington, Lexington, Bedford and Belmont as Foreman for over 3 years and am familiar with about

all the Electrical work in the City.

The New England Telephone and Telegraph Co, who are my present employers have very frequently intrusted me with special work in Mass. Maine and New Hampshire. The varied character of the work has made it necessary for me to solve Electrical problems of various kinds and brought me in contact with all manner of people for as many different purposes.

My last trip being to North Eastern Maine where I built two Exchanges and a trunk line 30 miles long connecting the two. Being under necessity of tenting for over seven weeks with 20 men and feeding them: buying material and provisions and hiring teams and paying all bills. In the 5 months the work lasted I did not see an officer of the Co., not being within 200 miles of any at any time and my only means of communication was by mail.

On my return I was made General Foreman in charge of the Suburban

Division, in which capacity I have direct charge of all the detail work of 31 Exchanges having over 5000 subscribers, most of which are metallic circuits and over 450 trunk lines connecting the various Exchanges, which position I now hold.

In answer to your other questions, I am in my 28th year having been born at Fall River, Mass. June 27, 1868. and a resident of Cambridge since July 1890.

I am not married and have not testified in court as there has never yet been any necessity for that kind of service in my business

Respectfully Yours
Hugh A. McCoy
295 Windsor St.

OFFICE OF
C. W. KINGSLEY,

Boston July 9/95

To the Honorable
Mayor of Cambridge
City Hall

Dear Sir

As I have been informed of probable vacancy of position of Insp. of wires and lamps at Cambridge by reason of resignation of Mr Morse the present incumbrent, may I request that my name be considered in connection with that position. I am at present connected with Western Union Telegraph Co. and would be pleased to have considered evidence of my qualification for position of this kind should such course be deemed advisable

I have the honor to remain
Yours very respectfully

C H Wentworth
35 Congress st
Room 7 Boston
Mass.

Cambridge, Mass.,

June 11, 1895

Hon. William A. Bancroft, Mayor,
Cambridge, Mass.,
Dear Sir,-

I beg leave to submit this written statement, as you requested, in regard to my ability to fill the office of Inspector of Wires and Superintendent of Lamps.

I have had twenty years experience in the business, fifteen as foreman for Stearns & George, and their successor Charles L. Bly, which position I now hold.

I have a thorough knowledge of pole setting, wire running for Telephone, Fire & Police Telegraph Electric Light and Railway work, and inside work of all kinds. I have repaired Dynamos, Motors, re-wound Armatures and can use the several meters and measuring coils, and know what magnets should be used to produce the best results.

In regard to the theoretical knowledge I would say that my education was obtained before there were courses upon electrical subjects in the scientific schools. I have, however, been a constant read

Cambridge, Mass.,

er of the electrical journals ever since such paper have been published. I have attended evening lectures given by the Professoe of Electrical Engineering from the Mass. Institute of Technology, and have a library of electrical publications which I have studied for years.

Mr. Morse, the present Inspector of Wires, is acquainted with my various qualifications and has consented to my referring to him. Dr. C. H. Thomas and Mr. P. G. Porter are personally acquainted with me and would gladly answer inquiries in regard to my character.

My residence for three years has been #430 Broadway, Cambridge. Trusting the above may contain such information as you desire, I remain,

Respectfully yours,

Charles F. Beardsley.

Cambridgeport.
July 12. 1895

Hon. H. A. Bancroft.
Mayor City of Cambridge

Dear Sir. I respectfully apply for the position of "Supt of Wires & Lamps" soon to become vacant through the resignation of Mr Morse.

While I am not an Electrician, I have a general idea of the uses of Electricity and would hope soon to become familiar with the requirements of the position

I have been a resident of this city since the War of the rebellion in which I

served for three years.

For twenty three years have been in the employ of A. T. Stewart & Co as Head Bookkeeper and Gen Supt, leaving there recently to engage in other business which has proven unsatisfactory.

Mr Stewart will, I am confident, endorse me, and I can furnish recommendation from a large number of influential business men of the city, if required.

This is my first and only attempt at obtaining public position in City, State, or Country. Hoping for favorable notice I am Respectfully Yours—

Wm C Brown

Mayor, City Hall

Cambridge

Mass

OFFICE OF
EDWARD F. JOHNSON,
ATTORNEY AT LAW.

Woburn, Mass., July 15, 1895

My dear Col.

An uncle of mine, Mr. Tidd of Woburn, has asked me to say a word to you in recommendation of Mr. William P. Brown of Cambridge for some position about to be filled by appointment by you. Of the position and his special qualifications for it, so far as dependent on any special knowledge, I can not say anything. Of Mr. Brown as a thoroughly honest, upright, downright and conscientious fellow, I can speak from personal knowledge of him and facts of his. His family, meaning thereby

father, mother and sister have lived near
me for many years. During this time
he has supported them and an invalid
sister out of his own earnings. I under-
stand that now he is out of employment;
and, owing to the above heavy tax on his
resources, without the financial means
he would otherwise have. ~~His family.~~ He
is not of course entitled to the position,
solely
on ~~these~~ grounds ~~specified~~ I have
mentioned, but these facts and the
well known sterling character of the man
may be worthy your consideration if
he possessed the other necessary qualifi-
cations.

Yours very truly
Edward F. Johnson

P.S. Don't trouble yourself to make any
formal acknowledgment of this letter

Hon. Wm. A. Bancroft

Mayor of Cambridge.

Sir. The bearer Mr. F. Teele has been known to me for several years. He is a graduate Electrical Engineer of Tufts College, Class of '91. Since that time he has been in the Electrical Industry continuously, with the Westinghouse Co. at Pittsburg as an installer of their apparatus, and with the West End Co. of Boston in which he has had experience in the whole line of business and has lately had charge of their lines and laying out new ones. It is my opinion that he is competent to undertake and properly manage such work as I understand is wanted of the one to be appointed as a superintendent of the telegraph telephone and electric lighting of the City of Cambridge. I believe him to be thoroughly honest and reliable, with good judgement in such matters, and I take pleasure in recommending him for that position.

Yours respectfully

Cobbs, Bates & Yerxa,

680 Washington St,

Boston, Mass.

Dear Sir;---

In regard to your letter concerning Mr. F.W.Teele I would say that he has been in our employ for the past 15 months, and previously he was with the Company one year, at which time I was not connected with the Company.

Personally I consider him a young man of excellent character in every respect and since he has been in my employ I have found him to be very trustworthy and of no mean ability, showing a great interest and a thorough knowledge of whatever work he has undertaken in our business.

He has made extensive tests for us on electrolitic action over the whole system, and also our car, motor and rail tests. Besides this he has charge of figuring out the necessary copper for our new lines, and for the whole system wherever changes were necessary. All of which work he has done with credit to himself.

Although working for us I should be pleased to hear of the young man's advancement in any Company or business outside of our own.

Yours truly,
