Dear Sir

If your Honor should think it advisable to appoint a Probation Officer I would like the appointment - believing it would greatly aid me in the performance of my duties as Temperance Missionary
The duties of the two offices are so intimately connected as to require but little additional expence
It would give me authority to do what I have been doing only by permision of the Court namely voluntarily becoming responcible for the good conduct of persons for such time as the court should appoint This after personal examination thought to be best for all concerned

Respectfully yours
Alonzo Stewart
