OFFICE OF THE CITY ENGINEER,

CITY HALL.

November 22d 189 2.

To the Honorable Board of Aldermen of the City of Cambridge,

Gentlemen:-

The accompanying petition of the Mt. Sinai Building Association referred to the City Engineer, has been considered, and I would respectfully report that as at present laid out, there will not be numbers enough for each door of the new block now under erection by the Association. The same difficulty exists on the opposite side of North Avenue on the property of the Henderson Brothers, and is likely to occur in the future in various places on the Avenue, at which there is a scarcity of numbers. The most permanent and radical remedy would be to renumber the whole of North Avenue. As this would effect a large number of people, I submit a plan by which the parties mentioned can have the numbers required, and but few people be compelled to change their numbers at present. This will probably answer for a time. The numbers shown on red on the plan are the present numbers and those in blue represent the proposed new numbers.

Respectfully Submitted,

L. M. Hastings
City Engineer.
