RE: Council Order No. 15, Dated April 26, 1993
Better system to address HazMat incidents

In response to the above referenced Council Order, I have conferred with both Captain Lawrence Ferrazani of the Fire Department and the Massachusetts Department of Environmental Protection to identify ways of enhancing the coordination of response to Hazardous Materials incidents in Cambridge. As the DEP Emergency Response Team assumes responsibility for HazMat response following initial investigation and mitigation of the incident by City Departments, we are seeking means of both expediting DEP's response and ensuring that the City's Hazardous Materials Task Force is fully informed of the DEP actions and schedule for response to each incident in Cambridge. I will keep you informed of our progress in this matter.
