Dear Ms. Drury:

This will acknowledge receipt your letter of April 13, 2000 forwarding to W.R. Grace & Co.- Conn. the order adopted by the Cambridge City Council on April 10, 2000 relating to the subject of asbestos at the North Cambridge site. Grace has already provided much information on this subject including its letter to Commissioner Struhs of January 13, 1998, which was copied to the City Council.

In Grace's view the activity which at this point in time will yield the most benefit to all is the development of the Asbestos Airborne Management and Monitoring Plan for the site. The AAMMP will address possible exposure pathways for asbestos, which may be present in soil at the site. We believe that this is the best way to deal with the asbestos issue at the North Cambridge site and we expect that the AAMMP will be available for review by DEP and the City in the very near future.

Sincerely,

John R. Wardzel
