Reference

Subject Request for Street Lighting-42 Jefferson St.

Jefferson Street in the vicinity of Harding Street is very dark due to the following conditions:

Referring to the enclosed print, the light designated "A" is shaded to light Harding Street, which is proper. This leaves that section of Jefferson Street without illumination.

My recommendation is to install a 2500 lumen light on the Pole designated "A" on the enclosed print.

Very truly yours

William H. Crocker
