To the Honorable, the City Council:

With respect to Awaiting Report Item No. 2, please be advised that it has been the policy of this office to permit each of the non-paid Boards or Commissions to have a so-called annual meeting which is, in effect, a dinner meeting. This method allows the expense to be handled within the budget of the department with which the group is affiliated.

I recommend the continuation of this procedure rather than one large function which would also present budgetary problems.

Very truly yours,

James L. Sullivan
City Manager
