WHEREAS: The MWRA is proposing to add to the Cottage Farm treatment plant at Magazine Beach; and

WHEREAS: Magazine Beach is a very busy recreation area with busy playing fields; and

WHEREAS: The treatment plant has land behind its fence that could be more accessible to the public; now therefore be it

RESOLVED: That the City Council hereby requests that Trudy Coxe, Secretary of Environmental Affairs, consider mitigation of EOEA Project #10335 by:

- Moving the fence back closer to the MWRA buildings to release more open space to the public; and
- Permitting the use of the grassy "field" on top of the building for soccer; and
- Consider having water fountains and restrooms available to the public; and be it further

RESOLVED: In that under local zoning, a building of 55 feet would not be permitted and is excessive for an open space district, the Secretary consider decreasing the height of the building; and be it further

RESOLVED: That the City Clerk be and hereby is requested to forward a suitably engrossed copy of this resolution to Trudy Coxe on behalf of the entire City Council.
