To the Honorable, the City Council:

In response to Awaiting Report No. 14, representatives of the City and the consultants have been meeting with members of the Bellis Circle Neighborhood Association to discuss issues concerning retention of the "turf/meadows wetlands" on the former city dump site. The Conservation Commission is currently reviewing information regarding the site and hopes to make a determination on the classification of the wetland during the month of August. In addition, the possibility of retaining the wetland on the site will be discussed at the City Council's Environment Committee meeting to be held on Tuesday, August 5 at 6 p.m.

Very truly yours,
