

HAPPY BIRTHDAY CAMBRIDGE

Happy Birthday to the City of Cambridge. You have made history. You are the maker of Democracy, teaching justice and supremacy to the world. Students come to our schools and colleges for learning, because they know that the education system is the best and a sensation. Then they go back to their home towns to teach what they have learned in the schools of this great City.

The methods of teaching is one of the best in all professions and for any language or country that is hungry to learn and to experience superiority and authority. All this is known to every one so that is why Cambridge City is Number One.

The leaders of this City have much experience and education and leadership to make the City of Cambridge one of the best governed in the State. Today's generation is able to experience and learn what is meant to become a part of a great City. Our government is the best and our protection is the greatest whether by day or night. So Citizens remember when a day arrives that the City needs your help, do not go away.

Once again I want to Thank the Authority and all the Citizens of this great City who for 63 years gave me the opportunity to work and earn my living all with friendship and sincerity.

May God bless every one from now until eternity.

HAPPY BRITHDAY CAMBRIDGE 150 YEARS

Happy Birthday to the City of Cambridge. You have made history. You are the maker of Democracy, teaching justice and supremacy to the world. Students come to our schools and colleges for learning, because they know that the education system is the best and a sensation. Then they go back to their home towns to teach what they have learned in the schools of this great City.

The methods of teaching is one of the best in all professions and for any language or country that is hungry to learn and to experience superiority and authority. All this is known to everyone so that is why Cambridge City is 'Number One'.

The leaders of this City have much experience and education and leadership to make the City of Cambridge one of the best governed in the State. Today's generation is able to experience and learn what is meant to become a part of a great City. Our government is the best and our protection is the greatest whether by day or night. So Citizens remember when a day arrives that the City needs your help, do not go away.

Once again I want to Thank the Authority and all the Citizens of this great City who for sixty-three years gave me the opportunity to work and earn my living all with friendship and sincerity.

May God bless everyone from now until eternity.
