Gentlemen:

Subject: Reinstatement of license -
345-347 Concord Ave.
Cambridge, Mass.

As a result of my investigation and referring to your application for reinstatement of license originally granted by the City of Cambridge at the above location for the keeping, storage and sale of gasoline and other inflammables, I find as follows:

It appears that the operation in connection with this property, for which the original license was granted, has continued without interruption since the license was issued, but that through fault of the holder of the license it was failed to be renewed in 1934. Under the provisions of the law at that time this license ceased to exist, but no action was taken thereupon by the local licensing authority to prevent the continuance of its privilege.

Under such circumstances, I cannot feel that my authority granted under the provisions of Chapter 143, Section 13 of the General Laws, with respect to the renewal of such license which may have lapsed before 1936, may be properly exercised. It is to be noted that the failure of the local authority to act at that time does not prevent an adjustment of this matter at the present time by the granting of a new license.

I therefore deny the application for reinstatement and recommend that a new license be sought for the purposes intended.

Very truly yours
