

Office of the City Engineer
Cambridge, Massachusetts
City Hall

October 9, 1974

To the Honorable, the City Council
of the City of Cambridge

Re: Request for sidewalk along easterly side of
Coolidge Avenue

I have surveyed the area of concern and found the following:

Many irregular grades exist which are hazardous to pedestrians.
This is a Public Way which was accepted by the City in 1886.
Young students are using the roadway to and from public transportation.

Yours truly,
