To the Honorable, the City Council:

With respect to Awaiting Report Item No. 40 relative to the implementation of new water and sewer rates, please be advised that the proposed changes to the water and sewer rates will be forwarded to the City Council shortly. While I had hoped to have this report to the Council earlier, the complexities involved in setting a block rate structure resulted in a slight delay. The report will be forwarded to the Council in time to allow adequate discussion of the issues involved.

Very truly yours,

Robert W. Healy
