Dear Walter:

I have read with interest Paul Healy's good letter of March 31, and wonder whether the members of the Cambridge City Council, the City Manager and their staffs would like to visit the Museum from 11 a.m. to 2 p.m. on some mutually-convenient day in the near future.

We would like to have you all present as our guests at the concluding demonstration of one of our school programs (promptly at 11), to be followed by a luncheon together with key members of our staff and Board. This would give us an opportunity to show you some of our newest exhibits and then talk about matters of mutual interest.

The months of April and May are ideal for such a visit as our school-group pressure from all over New England is then at its height, and you will enjoy watching the children's reaction to our program. Although re-education of people of our age is one of our objectives, our most important objective is broadening the horizons and opening the eyes of youngsters in an era when nothing else that we do is more important to our nation.

Sincerely yours,

Bradford Washburn
