Cambridge, 11-9-1977

To the Honorable, the City Council of the
City of Cambridge:
CAMBRIDGE, MASS.

The undersigned respectfully pray

The underside of my car, a 1973 Chevy Vega was brutally damaged while I was driving down Seventh St. in E. Cambridge. The streets, which are being torn apart as it is, was full of potholes that had no signs of warnings near them. The mishap occurred on 11-8-77 at 6:00PM in the pouring rain. I had been travelling on these roads all day and had no idea that a mishap like this could occur. I had promptly notified the Camb. police but before any action to surround the hole was done another car belonging to a relative of Councilor Friedli was damaged by the pothole. My car is now immovable due to the loss of the entire case of oil. Towing & repairing charges will be made that I unwillingly but most likely will have to pay. There ~~was~~ were 2 caution signs around the area this morning. I would appreciate prompt & rightful action concerning this incident to occur.

Thank you,
