CAMBRIDGE, MASS.
Agenda for Meeting of City Council Committee on
Health and Hospitals and Cambridge Health Policy Board

The major question to be addressed is what needs to be done to insure that an integrated quality health care system continues to exist in Cambridge in the future?

What can the Cambridge Hospital do to strengthen departments which need assistance; to increase its occupancy rate; to build relationships with other area institutions?

How can the health centers be best organized to provide primary health care to Cambridge citizens? What can be done about the growing competition for primary care patients?

What issues in environmental health need addressing, e.g., ordinances and regulations with regard to toxic and hazardous materials; improvements to the Cambridge water supply?

Are the health and hospitals management structures adequate?

Comm. from Joseph E. Connarton, Deputy City Clerk, transmitting a copy of the agenda of the joint meeting of the Health & Hospital Committee & Health Policy Board scheduled for April 11, 1984 at 5:30 p.m.
