To the Honorable, the City Council:

With respect to awaiting report item regarding a City appropriation of \$250,000 for the security of the housing developments, please be advised that the City Solicitor's report to the Council of May 10, 1974 indicated that such an action would be a violation of the Municipal Finance Law. I have been, however, actively exploring other funding sources, such as HUD, DCA and LEAA, and feel that a comprehensive security plan and funding source will be developed shortly.

Very truly yours,

James L. Sullivan
