

Superintendent of Schools
Cambridge School Dept.
Cambridge, Massachusetts

Dear sir:

I should like to thank you and your entire administrative and bilingual staff for their cooperative efforts during my tenure of research with Portuguese bilingual students.

All Masters of the high school, Kennedy and Harrington schools demonstrated genuine interest and were most helpful in all respects. The bilingual teachers gave me all the support necessary for my research requirements. Most of all, however, the children were beautiful!

It is always a pleasure to enter classrooms filled with love and respect. The Portuguese bilingual children and teachers have that special interpersonal relationship that caters to quality teaching and learning--a quality which attempts to bring out the best in all students. Surely, no less could be said of all other bilingual children hailing from other ethno-linguistic groups.

Congratulations on having a marvelous and professional bilingual program and, most of all, personnel most competent, willing, sharing, hard-working and empathetic. These are truly fibres of marked excellence in human communication and desire to bring out the inner qualities of our future leaders--the children.

Most sincerely yours,

Adalino Cabral
