

June 2, 1975

TO: Mr. Conrad Figone
Dept. of Public Works

c/c Mr. James Sullivan, City Manager
Mr. Paul Healy, City Clerk
Conservation Commission

During the last few years, sick trees have been removed from the sidewalk on Huron Avenue (between Raymond and Upland). As homeowners in the area, we are very disturbed that no new trees have been planted yet --- there is at least enough empty space for four trees already.

We strongly urge you to have trees planted this Summer; we are willing to assist in any way we can to see to it that the trees are planted.

A reply would be appreciated. Please address communications to Mrs. Primo Vannicelli, 11 Huron Avenue, Cambridge 02138. Thank you very much for your cooperation.
