

Cambridge May. 3/73

To the Hon. Mayor and Board
of Aldermen.

Gentlemen Having received
a notice from the City Treasurer that-un-
less I pay the assessment made on
account of laying a brick sidewalk in
front of my estate on the corner of
No. Avenue and Langdon St. on or before
the 15th inst. he shall proceed to sell
the estate according to law, I would respect-
fully say that there is a discrepancy of
something over one thousand between the
City measurement of the number of brick
laid and my measurement. I have
had the walk measured four different
ways and can not make quite Eight-
thousand brick while the bill calls for
9088. I am ready and willing to pay the
bill whenever it is made correct, and would
suggest that the City Engineer be requested
to measure said walk, for I am not quite ready
to have my property disposed of. By having the matter
attended to at once you will greatly oblige
Very Respectfully
C. D. Sawin.

Communication from
N. D. Lawin.
