

March 28, 1993

Dear Members of the City Council,

This letter is in regards to police commissing Perry Engelson. I have found him very helpful on several occasions. Many times I called him to either ask for his help or advice and he has been extremely helpful. I know when I call him if he is there he will pick up the phone in a friendly manner. He is willing to assist you or when he is busy or at a meeting, he will always return my call and be glad to help.

I think he should know people this kind of service especially from a man who is very busy person. I would like you to thank him for me and let him know the people really appreciate his help.

Thank you,
Mr. Paul Aia
