Re: EOE # 5487

Dear Ms. Baker:

The Cambridge City Council has asked that the review and comment period on the above referenced draft Environmental Impact Report be extended 15 days beyond the 30-day deadline to allow sufficient time for community review.

We have made a concerted effort to assist the community with their review during the normal 30-day period; we have held two public presentations and have scheduled a third review session for this week. However, given the Council's concern that this is still insufficient for the community's review, we ask that you extend the comment period to end on May 9, 1986.

Sincerely,

Drew M. Leff
Project Director
