To The Honorable City Council

It has been brought to the attention of the Civic Unity Staff and reinforced by my own observation that the City Hall is sorely in need of a new directory to the offices in the building. The marble directory in the entry hall and the directory by the elevator are very inaccurate.

We of the Civic Unity Committee Staff would appreciate the Councils' giving its attention to this matter, and respectfully request that some appropriation be made to replace and revise the directories, as is deemed necessary.

In line with this matter, we have also noticed that people having business in City Hall consistently have difficulty locating certain offices, such as the Office of the City Clerk. Signs placed above the doors, jutting out into the corridor would be more conspicuous and might alleviate the problem. We respectfully request that the City Council consider this matter as well.

Thank you for your cooperation.

Sincerely yours,
Clorae Evereteze
Clorae Evereteze
