LEGAL AD

D.P.U. 91-64

New England Telephone and Telegraph Company ("NET" or "Company") is seeking permission from the Department to offer a new service called Phonesmart. The proposed service includes four separate service features: Caller ID; Repeat Dialing; Call Return; and Call Trace. NET proposes to offer these services to one-party residence and business customers including Centrex but excluding PBX trunk, foreign exchange or foreign central office customers. The Company proposes to offer the service initially only on the North and South Shore of the Boston Metropolitan area.

According to the Company, the Caller ID feature would display the telephone number of the calling party on a display device purchased separately by the customers. The Company proposes to make available to customers the capability to block the passage of their telephone number on a call-by-call basis, free of charge.

The Department will conduct a public hearing on the above matter at its hearing room, 1210 Leverett Saltonstall Building, 100 Cambridge Street, Boston, Massachusetts on Wednesday, May 29, 1991 at 2:00 p.m.

A procedural conference for parties who have formally intervened will be held on May 30, 1991 at 10:00 a.m. at the Department's offices.
