March 19, 1975

George Teso
Director

PRESS RELEASE

The City of Cambridge will start its Street Cleaning Program on April 1, 1975. This program is designed to sweep every street in the City at least once every month.

The program is the same as last year where the City is divided into Ten (10) Districts and there being Twenty (20) working days per month and if one side of every street in the District were cleaned one day each month then every street in the City would be swept once a month.

As in the past if any Street Cleaning Program is to succeed it must have the cooperation of Neighborhood Groups, Residents, Businesses and the News Media.

The major difference between last years program and this years is that no signs will be stapled to trees and the signs will be made with masonry board rather than paper.

I am enclosing a copy of the Street Cleaning Districts along with a copy of the Street Sweeping Schedule for April. I would appreciate any help you can give me in informing the Public of this program. This information will also be printed in the local newspapers.

Very truly yours,

George Teso
Traffic Director
