Whereas the Cambridge City Council must from time to time reexamine and determine the city's growth policy;

Whereas the council subcommittees on economic development and environment intend to hold joint hearings prior to recommending new growth policy to the city council;

Whereas these hearings will focus also on the relevance to Cambridge of recently completed state and regional growth policy plans, namely the recommendations of the special commission of the Massachusetts Legislature and the findings of the Massachusetts Area Planning Council;

Whereas this city council is in receipt of recommendations on this topic from two important civic groups, the Cambridge Democratic City Committee and the Cambridge Committee for Liveable Neighborhoods;

Be it resolved that this City Council refers to the Planning Board these four reports, i.e. the reports of the Special Legislative Commission, the MAPC, the CCLN and the Cambridge Democratic City Committee and requests that the Planning Board recommend for the city council's consideration no later than the end of February, 1991, revised growth policies and programs for implementing them for Cambridge;

That the Planning Board is requested to seek neighborhood and business input in reaching its recommendations;

That, since one way of implementing such findings is through conducting detailed neighborhood studies with full community participation (e.g. the recently completed East and North Cambridge reports), the Planning Board and City Manager are requested to accelerate the scheduling of these studies so that they will be completed no later than December, 1992.

Whereas it is important to the long-term vitality of the city that the City Council develop a comprehensive growth management policy which preserves the livability of the city's neighborhoods while providing for ~~continued~~ ^{reasonable} RESPONSIBLE economic growth

Further resolved that neighborhood plans serve as a central part of the city's work to developing a comprehensive growth management policy.
