We have signed this zoning form on the proviso that the P.V.C. drain pipe and old oil fill pipe located between the subject property and Craigie Arms be removed or relocated internal to the building as part of this renovation work. Also, there is severe settling and cracking of the masonry adjacent to the P.V.C. pipe that should be properly repaired. Furthermore, we support this work only with the understanding that the upper level deck area is not being improved for use by the restaurant.
