December 14, 1972

Mr. Paul Healey
City Clerk
City Hall
Cambridge, Massachusetts

Dear Mr. Healey:

In reference to our discussion, the reason that we requested a transfer of funds from the F-144 Code --LEAD ANALYZER-- in the Health Budget is that we have rented equipment rather than purchasing it.

An analysis of current technology in the lead analyzer field indicates that there will be marked changes within the next few years. For this reason, it was considered more prudent to rent rather than purchase equipment.

Sincerely yours,

James B. Hartgering, M.D.
Commissioner
