

Public Record

To the City Council,

for the use of citizens to end violence and terrorism a National Defense Weapon, to be supplied to citizens for cost of printing and or mailing. All things are activated physically by the natural electrical forces of thought and breath. The procedure described in the instructions utilizes these natural electrical forces to stop the physicalization of negative natural electricity. Since violence and terrorism are a constant disease in our society and worldwide I have approached this city government with the solution and ask, in its concern as a government, to participate in the distribution of this information, which in doing so will end violence and terrorism for those who use it. A defense device that can be used by all citizens requiring some minimum consistent effort in its construction just as effort is needed to build the ability to play an instrument or learn the use of any mildly technical device. Just, do it.

Xerox in heavy card stock a copy of the information diagram to the right. Cut it out and mount it on a hard piece of material (such as a piece of masonite). If you can, it would be best to cover it before mounting with transparent plastic that is adhesive on one side. You can get this kind of transparent adhesive plastic in a stationary store.

Cut the hard material so it is the exact shape and size as depicted in figure (C).

Whenever you feel fear, or an intuitive feeling that you should, place fingers on section (B) begin breathing easily through mouth from back part of throat. Move fingers over the information sections until you are solidly guided to stop on a particular section. Then continue to breath until guided to stop. When your hand is guided to move to section (A) it means you have finished. I will take care of the rest.

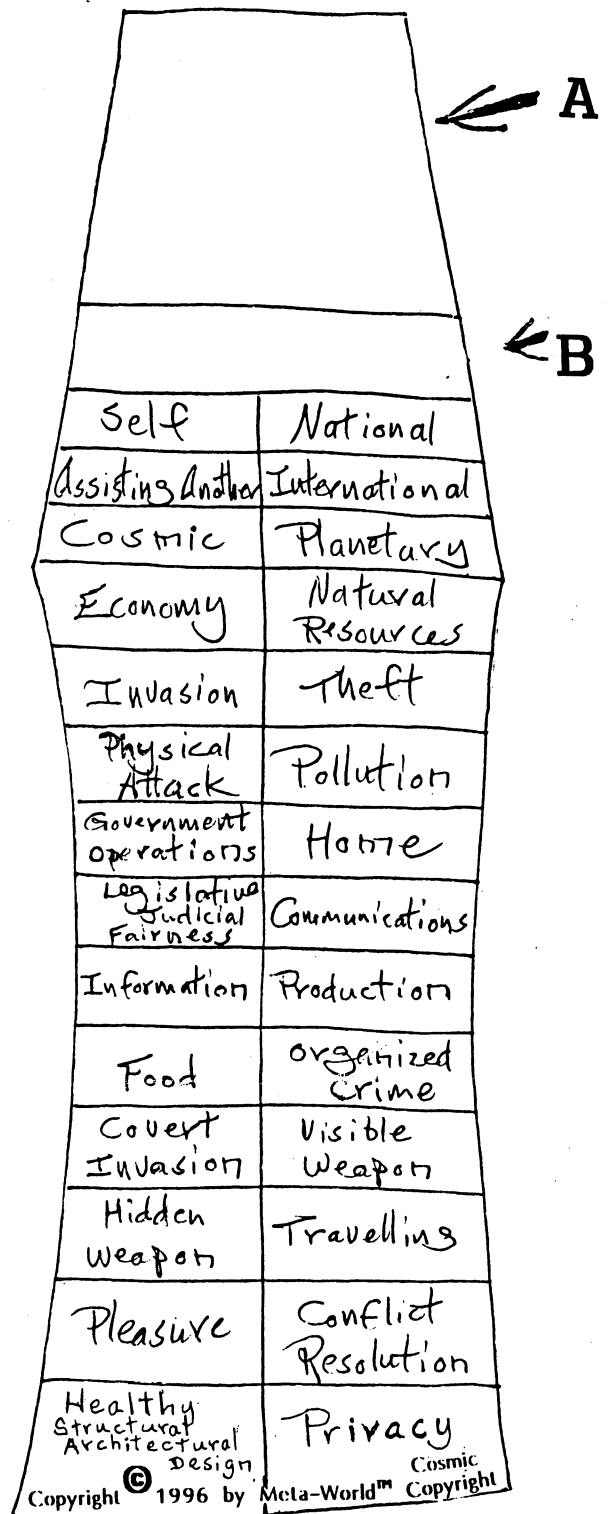

On your part to facilitate the defense energies you can do three things.

1. Develop a mellow form of exercise where you breath and stretch all body areas.
2. Be conscious of your pace of physical action whether it be walking, working or any other kind of movement. Be conscious of when your pace of action is unsteady and calm down by breathing and easily counting numbers (1,2,3 etc.) so that you feel a sense of steadiness.
3. Mold your entire life so that you feel good about everything you do, everyone you're involved with and everywhere you are. This will attune you more sharply to sensing the difference between what is good and not good for you , which will make you much more aware of the approach of interruptive forces. Of course this may take great effort on your part but can you think of anything better to do ? To obtain this information by mail send \$1.00 to

Public Record

I have given the city government a defense weapon to be given to citizens for the cost of xeroxing two pieces of paper, whereby a citizen using one's own natural electrical forces may defend themselves against violence and terrorism. This weapon will end violence and terrorism in America for those who want it out of their lives. I am an expert in the use of this technology and have been involved in the study and development of it for 28 years.

I've given this weapon to the people because the federal government has taken millions beyond millions of dollars for research in this field for 50 years and has developed technologies which can make the lives of citizens much more secure and yet the federal government has given the people nothing back for their hard earned money.

When a party takes money from another on the basis of giving them something in return and then gives back nothing, that party has stolen the money.

Here's a book titled the Warrior's Edge, written by faithful Americans in the military who are trying to give the public back some benefit of this kind of research. This book proves the federal government's involvement in this research. Many other examples can be found.

Has the federal government distributed this book to Americans and built centers where they can come and learn the techniques of the research they have paid for ? You have never gotten anything back to make your lives safer. They take your money to make their lives safer and their control over you stronger.

If this city government pursues the case I've presented of treason and war crimes committed by the President of the United States and the Congress of the United States against the American People, what will be ~~found~~ is that the federal government is in fact a massive criminally dominated ~~organization~~ *Found* organization posing as a national government.

In this case, which the council and city manager I believe have read, and which I urge every citizen to purchase a copy of at the City Clerk's office, I state clear evidence that the congress and president have committed treason and are in fact waging, with foreign powers, an actual war against the American people.

Is there a mayor, a councillor, city solicitor or city manager who will come forward and state that this is not true and state in detail according to the Constitution why it is not true ? Please come forward now and correct me so this horrible responsibility may be lifted from my shoulders.

So since the federal government is waging war against its own people, The People, according to their rights in the Constitution have a right to defend themselves.

This weapon will allow the people to defend themselves against those traitors in the federal government and the foreign monarchical beast which has long ago undermined it and taken it over.

I call this weapon the National Defense Weapon. It is the first part of a national security foundation. The second part is the creation of an Everlasting Constitution, a constitution which supersedes political elections and human corruption which will be created by the entire nation instead of a few cunning, scheming males. By entire nation I mean including children.

A plan for doing this will be the subject of my next communication.

Praize GOD Almighty

I now give this statement and the two pages describing the National Defense Weapon and an in depth analysis of the beast that calls itself a new world order, to the public record.
