PRESS RELEASE

"PERMANENT STREET CLEANING SIGNS" are now being installed in the City of Cambridge. These signs will designate a particular day during the month on which the street will be swept.

As in the past years the program is designed to sweep each street once a month but instead of using temporary cardboard signs, permanent aluminum highly reflectorized signs are being installed. It is our opinion that these permanent signs will eliminate most of the complaints received from parkers stating that the sign was not up or it rained and the sign was not readable.

We are asking the residents of the City for the same cooperation that we have received from them in the past, as without their continued support this program would not work.

Brochures will be mailed to all residents of the City as well as put on parked cars informing them of the new signs, along with a 1980 Street Cleaning Schedule to help them in understanding this program.

If there are any questions concerning this program, please call the Traffic and Parking Department at 498-9042 or Public Works Department at 498-9051.

Dear Resident,

This Spring we will be posting permanent street sweeping signs. As in the past several years your street will be swept once a month with each side being swept on a different day.

Please note that the new sweeping signs will designate a particular day during the month for example, "third Wednesday". This means that depending upon what day the month begins, the week during which your street will be swept may change. On the other side of this flyer is a sweeping schedule. You may find it helpful to mark your calendar with the days your district will be swept or keep this schedule in a convenient place.

Your cooperation in helping keep Cambridge streets clean is greatly appreciated. If you have any questions, please call the Traffic & Parking Department at 498-9042 or Public Works Department at 498-9051.

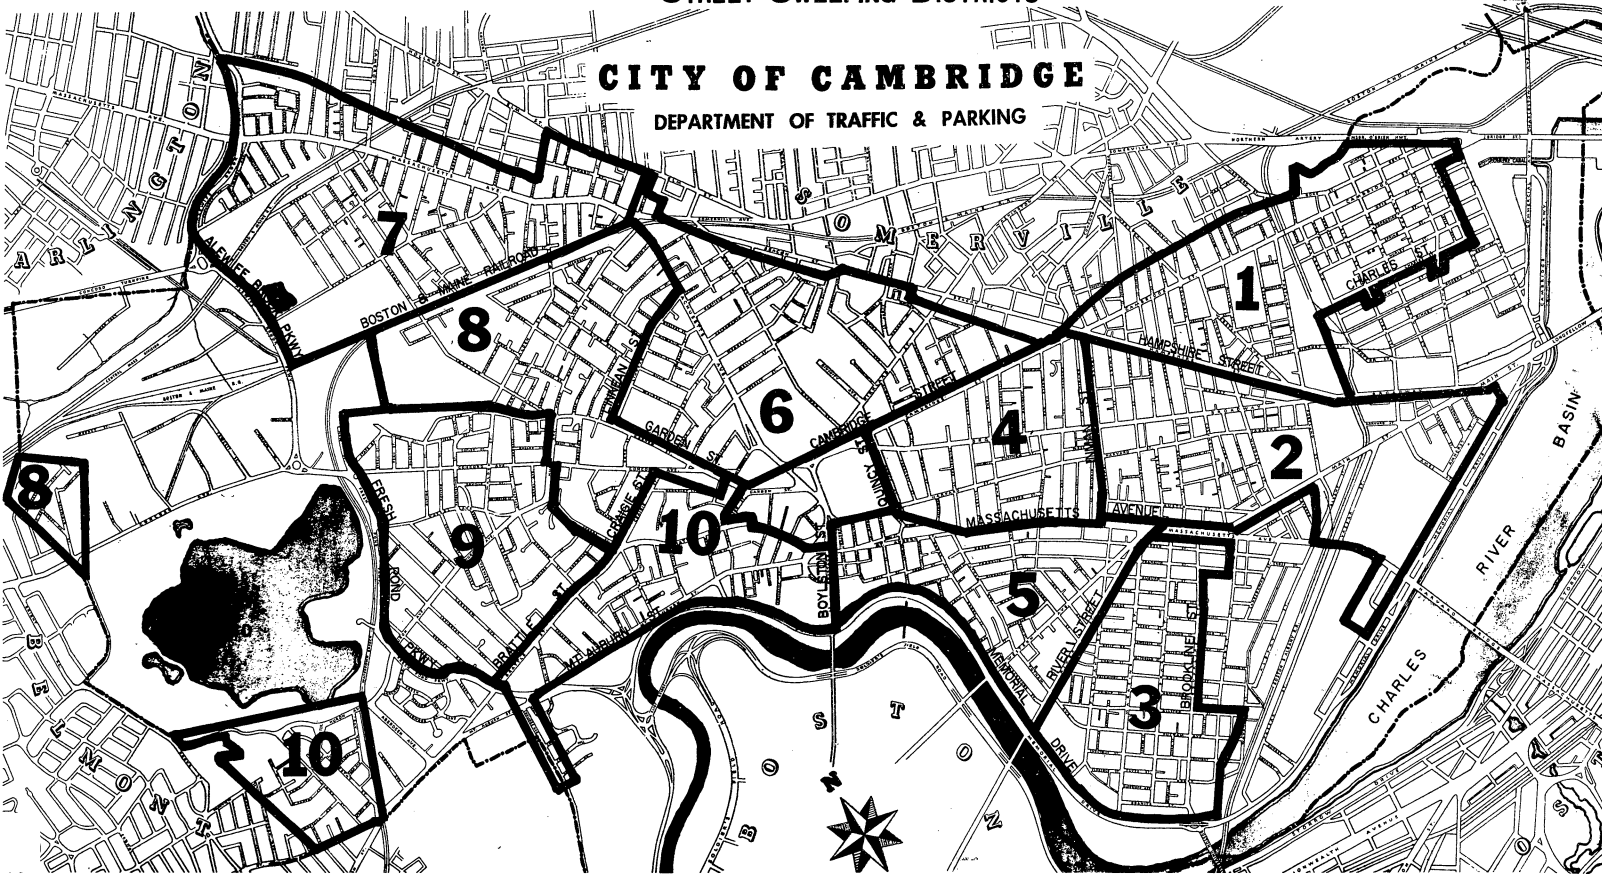

Thank you.
