To The Honorable City Council:

On behalf of the International Restaurants of Central Square, I write in support of Forest City Development's proposed University Park Phase II curb cut plan. This support is contingent upon Forest City providing answers to questions posed by the Ward Five Committee and Order #40, dated November 18, 1996.

Forest City Officials have met with members of the Restaurant Association regularly, and have provided us with updates concerning the progress of Phase II. Forest City plans are complimentary to existing uses in Central Square. The IRCS is also currently discussing joint marketing plans with Forest City, and to better inform current and future tenants and employees of firms located in University Park concerning the variety and quality of dining options in Central Square.

It is the understanding of the IRCS that Forest City Development is in the process of answering the various questions posed by the Ward Five Committee and Council order #40, dated November 18, 1996. The ongoing communication and cooperation of Forest City Development with the various neighborhood associations is encouraging, and is partially the basis of our support.

We look forward to the development of Phase II and the increased business that this new development will bring to Central Square restaurants.

Thank you for the opportunity to comment on this important proposal.

Sincerely,

Joe Sater

Consent Communication #18

S-637

Communication was received from Joe Sater on behalf of the International Restaurants of Central Square, transmitting their support of Forest City Development's proposed University Park Phase II curb cut plan.

In City Council December 16, 1996
