Mr. Walter L. Milne
Assistant to the Chairman
Massachusetts Institute of Technology
and
Mr. Donald C. Moulton
Asst. Vice President for Community Affairs
Harvard University

Gentlemen:

The City Council has received the Cambridge Laboratory Experimentation Review Board's report and at the present time have its recommendations under consideration. It is the feeling of some of the members of the City Council that both Harvard and M. I. T. file a written response to the report and that they address the following points in their written response:

- A) What is the timetable for the preparedness of their respective labs which might be used for recombinant DNA experiments?
- B) Where is each institution respectively in the certification process with N. I. H.?
- C) What steps are they respectively prepared to take in order to help the City implement Section III of the report?

It is my belief that the Council would like to act expeditiously on the Cambridge Laboratory Experimentation Review Board's report and it would be appreciated if you could provide the responses from the universities as soon as practicable.

Very truly yours,

James L. Sullivan
City Manager
