Cambridge City Council
795 Mass Avenue
Cambridge, MA 02139

I am a long time user of the Cambridge Public Library, and a supporter of its renovation and expansion. At the June 27th meeting of the Library Advisory Committee, we were given a tour of the building, including the work rooms and storage area.

I knew that the public area of the Library was desperately inadequate, and I expected to be depressed by the working facilities as well. I was horrified! It is unfit for books and manuscripts, let alone people.

How the wonderful staff can work under such conditions amazes me. They are simply heroic!

I urge all members of the City Council, and all concerned, to tour the Library. It is a disgrace to Cambridge.

Sincerely,

Anne G. Black
