Central Artery/Tunnel

Massachusetts Department of Public Works

March 1, 1991

Dear Reader:

Enclosed for your information are two volumes which together with parts of the 1990 Final Supplemental Environmental Impact Report (1990 FSEIR) for the Central Artery(I-93)/Tunnel(I-90) Project comprise the Final Supplemental Environmental Impact Statement (Final SEIS) and Section 4(f) Evaluation for this project. These documents fulfill the environmental review requirements of the National Environmental Policy Act (NEPA) and Section 4(f) of the Department of Transportation Act of 1966.

You received a copy of the 1990 FSEIR which was submitted by the Massachusetts Department of Public Works in November 1990, to fulfill the requirements of the Massachusetts Environmental Policy Act (MEPA). The Massachusetts Secretary of Environmental Affairs reviewed all comments and approved the FSEIR on January 2, 1991. This Final SEIS complements the FSEIR. The attached provides an explanation of the contents of the Final SEIS.

If you wish to submit comments as part of the federal review process for this project you may send them by April 8, 1991 to:

Mr. Alexander Almeida
U.S. Federal Highway Administration
55 Broadway, 10th Floor
Cambridge, MA 02142

If you have questions, or would like additional information on the 1990 FSEIR or the Final SEIS please call Stacy Richards at (617) 457-5472.

Sincerely,

William V. Twomey
Director, I-93/I-90 Project
