

Mr. Mayor:

I have been particularly touched and honored by the decision given by your Council, proclaiming Avignon "similar ' city and Sister City of the of the University City of Cambridge. "

In the name of the municipal administration that I have the honor of presiding, I give you my expression of profound gratitude.

I wish that the links established between the students of your prestigious University Center and those of our City, so that they will develop functions of cultural exchange.

You have been willing to invite the students and inhabitants of Cambridge to attend our festival which takes place during the summer at Avignon at the International Cultural Center. I can assure you at present that the Municipal Administration will be particularly happy to receive them in the manner of this demonstration.

I have been persuaded that the mode of work of these meetings to all levels will open for our two cities a first profound union in a reciprocal climate of esteem and liking.

I beg you to agree, Mr. Mayor, the expression of my most distinguished consideration

(signed) Henri Duffaut
