Subject Staff Assignments/1988-89 Council Committees

I am pleased to submit to you the following staff assignments to the Committees appointed by Mayor Vellucci on Friday, January 22, 1988.

As has been the case in the past, John Flynn and myself will essentially divide the staff work for each Committee, while the technical and support work will be done by Sandra Moretti. I believe these assignments provide a certain continuity to the Committees, while ensuring that each of you have staff back-up for any assignments related to public hearings, communications, etc.

Please feel free to contact either John or myself to arrange for any work you may require in this regard or if you have any problems with these assignments.

Enclosure

cc: Mayor Alfred Vellucci
