DEPARTMENT OF TRAFFIC & PARKING

George Teso
Director

December 16, 1974

Mr. James L. Sullivan
City Manager
City Hall
Cambridge, Massachusetts

Dear Mr. Sullivan:

In regard to the City Council Order requesting that I install Traffic Control Signals at the intersection of Upland Road and Raymond Street: I informed the City Council that this was scheduled for installation during the next fiscal year and that if there was any money left in my budget or if I found some way to obtain these funds that I would proceed with this installation.

This intersection is not a high accident location and there is a warning beacon at this intersection and it is my opinion that we should follow the normal procedures in our traffic signal program and even if we did receive this money at this time, construction could not start until the spring thaw.

Very truly yours,

George Teso
Traffic Director
