

I think that the new arbory work in Central Sq. is a complete success. It will contribute to the healing and uplifting of everyone.

I reemphasize that the arbory work in front of city hall is a failure. Lacking an ounce of creativity and inspiration. It's hidden statement is that the people who run our governemtn is that are dull minded boring beauracrats. I suggest that whoever designed the work in Central Sq. be put to the task of redoing the City Hall front. I also suggest that a law be put into place stating that there shall be no sleeping on the benches. Tap, tap wake up, no sleeping on public benches.

The work in Central Sq. is absolute proof of the city's great beautiful spirit.

a public bench is not the private property of one person.
