

September 21, 2000

Cambridge City Council
City Hall, 2nd Floor
Cambridge, MA 02139

Honorable City Councilors:

The signers of the Loose Petition and residents of the Riverside neighborhood have discussed and approved an amendment to the original petition document. This amendment clarifies an ambiguity in the petition regarding renovations to existing structures. It is not the intention of the petition to prohibit alteration and/or renovation to existing structures.

The signers of the Loose Petition would like to amend the original text of the Loose Petition with the following statement:

Notwithstanding the foregoing, permits may be granted for the alteration or renovation of existing structures, so long as such alteration or renovation does not increase the gross floor area of structure.

Sincerely,

A handwritten signature in black ink, appearing to read "Jack Loose", with a long horizontal flourish extending to the right.

Jack (Scott) Loose

Consent Communication #15

A communication was received from Jack (Scott) Loose, transmitting an amendment to the original petition regarding renovations to existing structures.

In City Council October 2, 2000

Referred to Law Dept.
for draft of appropriate
language and where
amendment should be
inserted in petition
