## CAMBRIDGE SCHOOL DEPARTMENT

159 THORNOKE STREET  
CAMBRIDGE, MASSACHUSETTS 02141

June 14, 1994

To The Honorable Members of the School Committee:

### School Debt Stabilization Fund

**Recommendation:** That the School Committee request the City Manager to establish a School Debt Service Stabilization Fund for the exclusive purpose of receiving and expending funds related to school construction or renovation projects which have been approved for funding by the School Committee, City Manager and City Council. The intent of establishing such Stabilization Fund shall be to stabilize the impact on the annual budget of fluctuating principal and interest costs on school projects, and to provide an ongoing source of funding for future school projects.

Further, that the School Committee approve the transfer of \$528,968 from the Debt Service account of the FY93-94 School General Fund Budget to the School Debt Service Stabilization Fund, such amount being the available balance in this account resulting from the first state reimbursement payment for the New Haggerty School Project, for which the first bond principal and interest payment is due in FY1994-95.

**Description:** Establishment of this Stabilization Fund will enable the School Department to initiate an ongoing source of funding for current and future school projects that will, if prudently managed, reduce the fluctuating budget cost patterns that occur when new projects are brought on-line. Revenue from the local property tax levy, state school construction reimbursements, and such other sources as the School Committee, City Manager and City Council may deem appropriate, would enable future projects to be approved without catastrophic impact on the School General Fund Operating Budget, which contains the budget for principal and interest payments on school construction bonds.

Attached is a 10-year plan summarizing estimated revenues, expenditures and available funds based on the establishment of the Stabilization Fund. At the present time, the School Department is facing a major budget problem in FY1995-96 and FY1996-97 related to Debt Service costs. The 20 year bonds for the New High School project (CRLS) were delayed in issuance back in the mid-1970's, while state reimbursements for the project were not delayed. As a result, the reimbursements end after 1994-95, while the bond principal and interest payments continue in 1995-96 and through the next two years.

Absent state reimbursements, the only other source of funding to pay school bond issue principal and interest costs is the Property Tax Levy, which is also the primary source of funding for the School Operating Budget. As the attached 10-year chart shows, the problem is much more significant without a Stabilization Fund, which can be used to set funds aside over the next two years, and can retain funds for future principal and interest payments to prevent a situation such as occurred with the High School bonds from occurring again.

With a Stabilization Fund, we can resolve the problem for FY1995-96, and reduce it for FY1996-97. If additional sources of funding can be identified over the next 2-3 years, we can further reduce the impact.

(1) \$879,188 - Haggerty SBAB reimbursement is included in SBAB revenues.

(2) Property tax support is calculated by subtracting SBAB revenue from total expenditures for FY'94 and keeping the base amt (\$1.2 M) for the out years with a yearly tax levy increase estimated at 3%.

To The Honorable Members of the School Committee:

Debt Stabilization Fund

Please Be Notified That; the attached recommendation to establish the School Debt Stabilization Fund will be submitted to the School Committee for approval at the next meeting on 6/14/94. The recommendation is based on the data presented in the FY94-95 Budget document and provides additional detail information on revenues and expenditures.

We are providing this in advance so that any questions can be responded to in advance of the 6/14/94 meeting and the current year transfer can take place before the fiscal year ends.

Respectfully submitted,

To The Honorable, The City Council:

**RECOMMENDATION:** That the City Council transfer \$528,968.00 from the School General Fund Debt Service Account to establish a School Debt Service Stabilization Fund for the purposes of offsetting future School debt service.

**BACKGROUND:** The FY 1993-94 School budget assumed that a full year of debt service on the Haggerty School Construction project would be required during FY94. In addition, the first year of the Commonwealth's 90 percent reimbursement for this debt service was received by the City. However, due to the fact that the timing of the sale of the Haggerty debt was delayed until February of the current year, a full year's debt service was not required this fiscal year. As a result over \$528,000 remains in the School debt service account. In FY93, School financial staff and City financial staff identified a school financing problem that will occur in FY96 and FY97 when state reimbursements for the 1978 High School project drop off yet two years of debt service remain. As the attached memo from School staff points out, this revenue shortfall would have to be made up from tax levy if the stabilization funds were not established. Because the City is at its levy limit, any additional tax levy funds to the School for this shortfall would necessarily have to be within the Schools overall annual tax levy number thus reducing funds available for general operating expenses.

I strongly recommend passage of this request.

Very truly yours,
