Cambridgeport, Mar. 9 1888

To the Chairman of Committee on Roads & Bridges.

Dear Sir,

It
will be impossible for me to appear before your committee this evening.

What the petitioner asks for is absolutely a public necessity, after a rain or snow storm it is worse than a nuisance, and I think it costs the city more to keep repairing every year, than it would to buy the stover and be done with it.

This is all I ~~as~~ would say regarding it, were I able to be present. Hoping that the petition meets your approval, I remain

Yours Respectfully

Geo Close
