Proposal to tow cars around the block instead of across town.

COSTS

Need a (one time) State House bill to allow an expensive ticket.

DPW or Tow Desk will have to account for tow truck hours.

T & P will periodically have to write checks from its ticket account to the tow companies.

Some claims for dents may have to be dealt with.

BENEFITS

11,909 individuals (mostly citizens) will each save the anxiety of having their car disappear, the hassle and the time of retrieving it from across town (when they have no car to get there) every street cleaning season (April to November).

Towing companies can tow more cars per hour (less miles, less stop lights, less gas and depreciation).

The pedestrians and drivers in Cambridge will not have to deal with cross town tow trucks as often.

Police Officers will be available for more active duty hours (more interesting for police officers and more valuable for citizens) for the same pay.

DPW truck and personnel will save time and be available for other jobs.

Cambridge may save money by not having to rent street cleaning machines as much.

City Government will be more well-thought-of.

Dear Mr. Healy,

I would like to request a hearing to appear before the City Council to discuss the options available to the city for the removal of cars to clean the streets.

It is my belief that there is an option available which would achieve the same results more rapidly and effectively, with less expense and inconvenience to all parties involved.

Sincerely,

Nicholas Adams
