April 26, 1993

TO THE CAMBRIDGE CITY COUNCIL:

Anne R. Dow, Director of Harvard University's Programs of English as a Second Language, will soon be leaving Harvard University, to which she first came as an undergraduate in 1956.

For over twenty years, Anne R. Dow, a Cambridge resident, has made outstanding contributions to the intellectual life of the city. Under her direction, the Harvard ESL programs have evolved from simple, unrelated classes to as many as seven interrelated programs where teacher-training, assessment, research, and innovations in educational technology have provided an innovative atmosphere which has drawn ESL students to Cambridge from around the world. Each year, these programs have employed over a hundred staff and faculty, and served over 2,000 students from over 50 countries.

Her achievements have been truly superior. She has earned a very well-deserved reputation as an ethical, caring professional. She has created an environment for teaching and learning where it has been stimulating and enriching to work and study.

Under Anne R. Dow's direction, the Harvard ESL programs have brought significant benefits to the Cambridge and greater Boston community in the following ways:

- attracting to Cambridge each summer increasing numbers of international professionals and students who participate in the life of the community and patronize its shopping, dining, and entertainment opportunities
- serving the needs of the local international community through the Summer School evening courses and Extension courses which teach those language skills so desperately needed for professional, social, and economic well-being
- encouraging ESL students to become volunteers in the community, enriching the lives of Cambridge and greater Boston residents through such services as storytelling in their schools, serving in their soup kitchens, volunteering in their hospitals, and reading to the blind

*Instituting a scholarship program for as many as 25 worthy individuals per term who have been nominated by local agencies. Recipients have included refugees, battered women, and deserving high school students.

*Educating foreign students about the transmission of the AIDS virus and the impact of the disease on the world community.

*Providing formal and informal opportunities for international visitors to meet and develop professional and personal relationships with their counterparts in Cambridge and Boston businesses.

Employing hundreds of Massachusetts ESL professionals ^{}Sponsoring an annual musical event bringing together residents of Cambridge nursing homes with ESL students and instructors to sing the musical favorites of Cambridge seniors.

*Bringing together people from all walks of life, as well as many countries, in a supportive classroom atmosphere where they learn about each other and come to value and appreciate their differences and commonalities.

*Hosting and creating stimulating academic exchange programs for prestigious international groups, (such as the delegation of Soviet States Information Agency) and ACTR (American Council of Teachers of Russian) as the nation's first cultural/educational exchange with the Soviet Union under the agreement reached by President Reagan and Gorbachev at the Fall '85 Geneva summit conference; now therefore be it
