The Honorable Francis Duehay  
Cambridge City Hall  
795 Massachusetts Avenue  
Cambridge, Massachusetts 02139

Dear Mr. Duehay:

In November the Cambridge City Council voted to ask the City Solicitor to draft an ordinance pertaining to animal testing conducted in Cambridge. Arthur D. Little, Inc. is concerned that such an ordinance might prohibit testing to determine the safety of medical products and the health risks associated with environmental pollutants.

For more than a decade Arthur D. Little, Inc. has been active in the development of alternatives to animal testing. Although in the future alternative methods of assessing the toxicity of products may be developed, these methods do not exist today. We feel that our work for the pharmaceutical and biotechnology industries is important for determining product safety and health risks. We believe that existing federal, state and Cambridge laws ensure that the treatment of laboratory animals in Cambridge is exemplary.

Sincerely yours,

R. Scott Stricoff  
Vice President
