THE LIBRARY

TO WHOM IT MAY CONCERN:

Some of us are people very much concerned about the "possible" move of our main Cambridge Library.

I exercise every Tuesday morning with Sylvia who donates her services to more than 25 women of the "certain age".

As a grandmother I see mother's and their little "tots" going to story hour and other activities. I can't imagine them trying to get to the Library in the middle of Cental Square! What wonderful habits for both mothers and children.

Please -- think again how our worlds would be disrupted by taking away "our library".

The Book Club keeps us informed of the latest reading materials.

The present site of the library is in a residential district which makes it available to users without having to contend with the confusion and traffic connected with a commercial area. This location is more convenient for use by High School students and is a safer area for small children to get to the library.

One more word about our beautiful building....

Sincerely,

Clara Gallup
Dana S. Gallup

Consent Communication #8

4645
A communicaiton was received from
Clara Gallup and Dana Gallup,
transmitting their concern
regarding the "possible" move
of the main Cambridge library.
