THE CHARLES RIVER CROSSING

We are writing to you with urgency about the recent proposal by the Commonwealth to build a 10 lane bridge span over North Point in East Cambridge. We do not feel that this is any where near the best solution to the crossing. Although some of us have worked toward decreasing the impact of traffic on our neighborhood, we do not want to accept promises of mitigation in exchange for this huge bridge in our city.

We are anxious to be part of the City's process in responding to this proposal. We strongly urge that this discussion be part of the public agenda and be held on camera.

Yours truly,

Bill Cavellini
