

To the Common Council of the City of Cambridge:

The subscribers, citizens of Cambridge, and owners of, or interested in, Real Estate on South Sixth St. in said City, respectfully represent: That said South Sixth Street, between Spring St. and Charles St. is so low that it is under water at high tide, and that residence on said St. is thereby made very inconvenient and also unhealthy. That said Street should be raised above the water, by filling up from Spring St. to Charles St. And pray that the condition of said St. may be considered, and that the work necessary, as above represented, may be done.

of John H. Swiney v.
South Sixth St.

March 3. 1868.

City of Cambridge

In Common Council April 28. 1868.

The Committee on Roads and Bridges, to whom was referred the petition of John C. Swiney and others, that that portion of South Sixth st which lies between Spring and Charles streets, may be filled up and accepted by the City, have considered the same and would recommend that, whenever the petitioners furnish the City with a plan, shewing the above portion of South Sixth street to be forty feet wide free from all encumbrances, and grade the same to the satisfaction of the Superintendent of streets, that it be accepted by the City.
