

to the Cambridge City Council.

Please do not destroy the lives
of 80 Charles River white geese at
Magazine Beach.

The destruction of the goose
meadow by Boston University, has
caused great trauma to this
community of geese. Their lives were
~~more~~ more serene when they had
the protection of mother nature's plants
& trees which grew in the meadow...

I oppose the development of
Magazine Beach. The fields at
Magazine Beach are the only such
large area of "unregulated use"
in all the urban Boston area.
We need to protect open space.

Sincerely,

Ann Zyach
