

Cambridge Carriage Coalition

Networking Today to Build Relationships for Tomorrow

A committee has been developed on January 20 to provide a taxi school within the City of Cambridge. This school will provide drivers with the proper skills to service both citizens and tourists. It will also help current and future drivers with English language skills, and provide training for drivers in servicing the physically challenged. This school will be the first of its kind in Massachusetts and hopefully will be a model for all cities to follow. The question of funding for all or any part of this education school must be discussed.

The committee is comprised of:

Cambridge Carriage Coalition

Cambridge Hotel Association

Cambridge Taxi Association

Ambassador Brattle Cab

Independent Drivers of Cambridge

Checker Cab

Cambridge License Commission

Yellow Cab

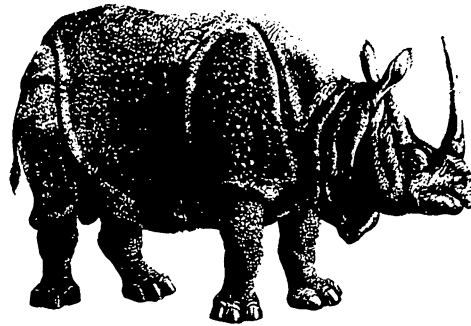

Our mayor and the council have repeatedly expressed the need for Cambridge to step up their educational systems. The taxi industry would also benefit from proper education. In order to provide the standard of excellence in service that Cambridge demands, funding will be necessary. This school is the vital first step in education and communication to ensure the citizens, tourists, and business community a multi-service, sensitive, efficient, and professional transportation industry for the future.

Michael Gervais
