Dear Mayor Sullivan,

During the month of March, I heard on WEEI that Cambridge was being given extra funds for park improvement. I thought that this would be an ideal time to write to ask you and the City Council to consider some better placement for the memorial stone that is now in front of the school for Anthony Colosimo.

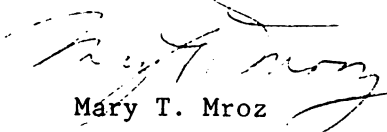

The stone is set on bare ground, there is no greenery, and usually there is trash left by persons who pass by and animals wander in the area. The custodial staff tries to keep ahead of it, but the situation is still not a good one and is certainly not a fitting memorial.

I had hoped that the Council would consider placing the stone in some central park area with trees, grass, and bushes which would enhance the memorial intended. If the stone cannot be moved, then the park department should be directed to maintain the area with grass and shrubbery. Perhaps a short fence would keep the trash away and prevent animals for going near the stone.

If you would like me to make a presentation to the Council, I would be happy to do so.

Thank you for your consideration.

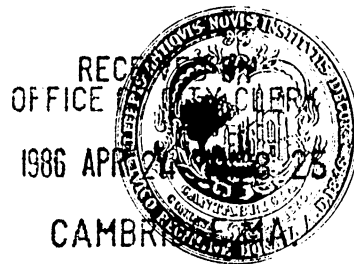

Yours truly,

Mary T. Mroz
